## Professional Experience

### Industry

- 2024 **Research Intern**, Microsoft Research  
Hosted by Dr. Scott Counts. Worked on analyzing how user experience with LLMs is impacted in cases of model mis-alignment with human values.

2019 **Data Science Intern**, *TurnoutNow*

Using real-time location data from IoT BLE Beacons and natural language generation tools with live data connections to generate narratives for end users.

## Academia

2021–present **Research Assistant**, *CLIP Lab*, UMD

Advised by Professor Rachel Rudinger on evaluating Large Language Models in cases of uncertainty in commonsense reasoning and how they deviate from human values.

2021 **Research Assistant**, *HDI Lab*, UMD

Advised by Professor Leo Zhicheng Liu on using Natural Language Processing Techniques to harvest design feedback from visualization comments on social media platforms like Reddit.

2020 **Research Intern**, *Global Health Center*

Hosted by Dr. Amandeep Gill. Researched the role of micro-narratives as proxy variables to fill in missing data and developing human-centered benchmarks for digital health.
